

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Boil Water Advisory Has Been Lifted for The Town of Ennis MT0000208

Our water system experienced a water main break which could have resulted in contamination of the water supply. Because of the loss of pressure, it was unknown if contaminants could have infiltrated the distribution system. Five bacteriological samples taken **6/4/2024** showed satisfactory results and repairs were completed along with disinfection and flushing.

This **Boil Water Advisory has been lifted**. The Town of Ennis public water supply had experienced a loss of pressure due to a water main break. Water system personnel worked diligently to get the water main repaired and disinfected.

What should I do?

Return to normal use.

What is being done?

Bacteriological samples of the water were collected on 6/4/2024 and have satisfactory results.
